

# PIZZA & PROGRESS

Pizza Hut and our parent company, Yum! Brands, have a Recipe for Good which covers strategic investments in socially responsible growth, risk management and the stewardship of our people, food and planet. Check out some of our recent highlights below.

## UN Sustainable Development Goals We Support

Within Pizza Hut, more than 5,500 RGMs have been trained in the brand's custom leadership course, Leading With a Growth Mindset.

In the U.S., we have operated the BOOK IT! reading program for students since 1984. The program - designed by educators, implemented by teachers, and encouraged by parents - was created in an effort to foster a lifelong love of reading and increase literacy rates across the country.

We have introduced plant-based cheeses in Portugal, Spain and the U.K.

At Pizza Hut South Africa, the LeadHERship program, in partnership with the nonprofit, YES4Youth, is connecting young females from marginalized communities, with access to education and career opportunities.

Harvest is our signature food donation program, through which surplus food from our restaurants is donated to food banks and other organizations in need. Since 1992, this program has enabled Yum! to donate 213 million pounds of food.

Pizza Hut U.S. is working to remove antibiotics important to human medicine from chicken used for wings and expects to meet this goal by the end of 2022.

In the U.S., we are partnering with the Dairy Farmers of America, and dairy suppliers on a joint dairy project to provide participating farmers with technology and data needed to help reduce greenhouse gas emissions.

Pizza Hut U.K. introduced a "carbon-neutral" flatbread, for which we purchase carbon offsets from a local partner.

For more information about our Recipe for Good, view Yum!'s 2021 Global Citizenship & Sustainability Report at [Yum.com/citizenship](https://www.yum.com/citizenship).
