

Yum! Brands Climate Commitment

We're committed to addressing climate change and working with our franchisees, suppliers and producers to make a difference.

Our Goals

Reduce our greenhouse gas (GHG) emissions

46%
by 2030*

Reach

NET-ZERO

emissions by 2050

Our Focus Areas

RESTAURANTS + SUPPLY CHAIN + PARTNERSHIPS

With more than **50,000** restaurants globally, we're accelerating our efforts around green building development and renewable energy.

Beef, poultry, dairy and packaging are our four priorities aimed at minimizing emissions across the supply chain.*

Strategic partnerships with groups like the Renewable Energy Buyers Alliance are key to advance this work in our own value chain and beyond.

Our Planet Journey

For more information about Yum! Brands' citizenship and sustainability strategy, called our Recipe for Good, visit www.yum.com/citizenship.

*Our 2030 targets are consistent with reductions required to keep warming to 1.5°C and have been approved by the [Science Based Targets initiative](#) (SBTi). Scope 1 consists of direct GHG emissions from sources that are owned or controlled by Yum! and scope 2 are indirect emissions resulting from the generation of electricity, heat or steam purchased by Yum!. Scope 3 are indirect emissions from sources not owned or directly controlled by Yum! but related to the company's activities such as franchisee and supplier operations.
